

Research Scientist

The Insurance Institute for Highway Safety, a nonprofit organization conducting multidisciplinary research, seeks a **Research Scientist** to join our research program in Arlington, VA. Our organization is at the forefront of efforts to find effective means of decreasing the incidence and severity of motor vehicle crashes. Research from IIHS on drivers, vehicles, roadways, pedestrians, and bicyclists is respected worldwide and is used to influence policy and vehicle design.

Compensation consists of a highly competitive salary and a 403(b) retirement plan with a nonelective annual contribution equal to 10% of your salary. Other benefits include health insurance (with dental and vision coverage), life insurance, medical and dependent care flex spending accounts, reasonable working hours, and 3 weeks of paid vacation in your first year.

Duties

- Design and conduct research projects
- Manage research performed by outside contractors
- Collect and analyze data
- Evaluate research literature
- Prepare research reports
- Publish in peer-reviewed scientific journals
- Present research findings to technical and nontechnical audiences

Qualifications

- Graduate degree in fields such as psychology, human factors, transportation engineering, statistics, or epidemiology
- Strong research design and analysis skills
- Strong written and verbal communication skills
- Ability to conceive, design, and carry out research projects with minimal supervision
- Interest in solving real-world problems in collaboration with professionals from other disciplines
- Experience in highway safety is desirable

To apply, email your resume and cover letter to research@iihs.org.
