

Pd' Programming info for 2021 Virtual Traffic Records Forum

Logo (included in zip):

Exhibitor Name:

Pd' Programming, Inc.

Description:

Pd' Programming has been producing the most powerful crash records analysis software for over 30 years. Our Crash Magic product provides hot spot location, summaries, presentation graphics, pin maps and yes, the best automated collision diagrams possible. Gather data using route-milepost, address, intersection, node, latitude & longitude, or even use your own ad-hoc query.
